

# Yevhen Nebykov

## Full Stack Developer

Ghent, Belgium • P: +32472263083 • [contact@nebykov.com](mailto:contact@nebykov.com) • [LinkedIn](#) • [GitHub](#)

### PROFILE

---

Frontend & Full-Stack Developer with 4 years of commercial experience. Led cross-functional teams and built scalable fintech and enterprise platforms using React, Next.js, NestJs, Spring Boot, Java, TS, PostgreSQL.

### WORK EXPERIENCE

---

#### Xedrum – Frontend Developer

Remote - Jun 2025 – Present

- **Enterprise Ecosystem:** Architected 5-project ecosystem for automated document processing in US insurance industry
- **Visual Programming Platform:** Built no-code workflow builder enabling users to create complex procedures (LLM document processing, email automation, integrations, etc.)
- **Multi-tenant CRM:** Developed custom CRM system with configurable form templates, OAuth authorization, email campaign management, and cross-project user administration
- **Scalable Architecture:** Designed modular system supporting multiple organizations and business units

Stack: React, Next.js, *Untitled UI*, Tailwind CSS, React Flow, Recoil, TanStack Query, Google Analytics

#### Nexa Agency – Full-Stack Developer & Team Lead

Remote - Jun 2023 – Apr 2025

- **Team Leadership:** Led cross-functional team of 8 developers across multiple concurrent projects
- **Enterprise Fintech:** Delivered turnkey development solutions for European fintech companies
- **Startup Success:** Built fintech startup from concept to production release, managing full development lifecycle
- **Scale Achievement:** Developed and maintained platform that grew from 0 to 4 million users
- **Client Relations:** Conducted technical negotiations and solution presentations with international clients

Stack: React, Next.js, NestJs, PostgreSQL, Redis, BullMQ, TypeScript, MobX, Material UI, Ant Design, Radix UI, Firebase, Jest

#### SoulSync AI – Full-Stack Developer

Remote - Jan 2022 – May 2023

- **End-to-end ownership:** Built the platform from scratch to production, covering architecture, development, deployment, and maintenance.
- **Real-time experience:** Implemented low-latency chat and live match features with WebSocket integration and robust event handling.
- **Scalable backend:** Developed modular NestJS services with PostgreSQL, optimized queries, and clear domain separation for future features.
- **Frontend delivery:** Built responsive, animated interfaces in Next.js with Redux Toolkit, Ant Design, and Framer Motion for smooth UX.

Stack: Next.js, NestJs, PostgreSQL, Redis, RabbitMQ, TypeScript, Redux Toolkit, Ant Design, Framer Motion

## EDUCATION

---

### National University of Shipbuilding, Ukraine

- *Bachelor's Degree in Computer Science* — Graduated 2024
- *Master's Degree in Computer Science* — Graduated 2025

**Relevant Coursework:** Web Development, Software Engineering, Database Systems, OOP, Algorithms & Data Structures, Computer Networks, Operating Systems Artificial Intelligence

## ADDITIONAL

---

**Frontend Development:** React, Next.js, HTML, CSS, JavaScript (ES6+), TypeScript, Shadcn, UntitledUI

**Backend & Integration:** Node.js, Express.js, NestJS, MongoDB, PostgreSQL, Firebase, AWS, REST, GraphQL, Prisma, TypeOrm

**State Management:** Redux Toolkit, MobX, Context API, Zustand

**Tools & Workflow:** Git, GitHub, Webpack, Babel, npm, CI/CD, GitHub Actions, Docker, Kubernetes

**Testing:** Jest, React Testing Library, Cypress

## LANGUAGES

---

**English:** B2+

**Dutch:** A2+

**Ukrainian:** C2
